

# Notes to a Political Scientist

By Phillip W. Weiss

**Monkeyman is back! Cecil Monkeyman.<sup>1</sup>**

**Don't mess with Monkeyman!**

**He remembers your shenanigans at Brooklyn College. How you wooed all the ladies with your phony baloney Italian love songs and how you were such a big shot at the Sugar Bowl. Now it's Moneyman's turn to be the big shot with the ladies. Moneyman has arrived.**

**Monkeyman demands justice!**

**Political science failed me.**

**Cecil Monkeyman was the greatest bombollini in the world.**

**Don't mess with Monkeyman.**

**Your comments have enraged Monkeyman who rejects your complaints as typical political science babble.**

**Moneyman was there when you stormed out of your political science class after the instructor, who was a brilliant orator, demanded that you stay awake while she was lecturing.**

**Monkeyman recalls that during class while you were sleeping you would mumble loudly disrupting the class and causing the female students to complain about you. Monkeyman also complained about you. He did this to impress the ladies who were very appreciative of his efforts on their behalf. Monkeyman was a gentleman who possessed impeccable charm.**

**Monkeyman would ask the female students who they thought was the finest gentleman, him or you. Every lady answered him, meaning Monkeyman, who reaped his award by collecting hundreds of telephone numbers.**

**Your conduct was disgraceful, yet Monkeyman still respected you for your dedication as a student of political science.**

---

<sup>1</sup> Cecil Monkeyman was a political scientist who subsequently repudiated political science as a fool's paradise full of pompous noise that spew lies while squandering billions of taxpayers dollars in slush funds masquerading as research projects.

Monkeyman defended you, explaining that you had become fatigued while preparing to celebrate Hannukah. The instructor, who was a Zionist, was greatly impressed by Monkeyman's appeal and granted permission for you to continue sleeping in class.

However, the Free Palestine students became outraged and showed their opposition by sleeping in the class too.

Moneyman wishes you a Happy Thanksgiving Day.

First, you can speak for Berkowitz because you are Berkowitz. What Monkeyman would do is what you did, which was sleep in class.

You are Berkowitz.<sup>2</sup>

As you stormed out of the class, you would shout, "My name is Berkowitz."

You have it all wrong. While you were sleeping in class, Brooklyn College bombarded your brain with an incessant message, "I am Berkowitz." Then you became Berkowitz.

Berkowitz is a figment of your imagination. The professor who you call Berkowitz was named Melville Humplemeier. Humplemeier was your mentor.

Melville Humplemeier was also known as Barnard Sanders, yes, the same Bernard Sanders who today is known as Bernie, the much-beloved senator from the state of Vermont.

So, who you think was Berkowitz was Bernie Sanders.

I am with Monkeyman

Monkeyman is outraged by your comments about him. Yet, Monkeyman wants your advice. He wants to know what the prerequisites are to become a Master of Political Science. Monkeyman wants to become a political scientist.

He wants the diploma.<sup>3</sup>

---

<sup>2</sup> Professor Berkowitz was a professor of political science at Brooklyn College during the 1960s. He served as role model and mentor for scores of political scientists who came to identify closely with the persona of their most revered mentor and champion for social justice.

<sup>3</sup> By diploma, Monkeyman is referring to the Ph.D. in Political Science. Later, Monkeyman excoriated the Ph. D. in Political Science as rubbish, a worthless piece of paper good for use as kindle for a fireplace.

Monkeyman was becoming frantic with worry over Mr. Weinstein's whereabouts. With your report, now all is well. This is a stellar example of political science being put to work for the benefit of humanity. Bless you many times.<sup>4</sup>

May your Hanukkah holiday be filled with joy. May your menorah burn brightly. May you have the best chair in the synagogue. May you be showered with honors from above. May the chosen people shout your name with joy. May the Department of Political Science at the Grad Center confer upon you the Doctor of Political Science. May every political scientist throughout the world plagiarize your work. May Hamas, the Ayatollah, and the Houthis sing your praises. May the Prince of Saudi Arabia pledge one trillion dollars in your name. May you collect ten thousand telephone numbers from ten thousand beautiful young ladies.

By locating Mr. Weinstein, you have performed a mitzvah worthy of the Nobel Prize. Many blessings to you, your family, your friends, your fellow political scientists, and for all who have benefited from your dedicated service as a Master of Political Science. May President Maduro confer upon you the title of citizen of Venezuela. May Antifa, Democratic Socialists, and the Democrat party shower you with praise. May Donald Trump confer upon you the title of High IQ Person. May President Xi and President Putin honor you with praise, for they too were racked with anguish over Mr. Weinstein's whereabouts. You did good and for that you should be proud. Mr. Weinstein asked me to thank you for thinking about him and wishes you and your family a Mazel Tov, Mr. Weinstein hopes he can personally thank you for all the concern you have shown for him.

Mr. Weinstein believes that as two men sharing the same religious faith, you and he have much in common. Mr. Weinstein also wants to learn more about your accomplishments during your tenure as a public schoolteacher. Mr. Weinstein believes that there is no profession more noble than that of public school teacher and no discipline more worthy of accolades than political science. Mr. Weinstein also wants to know if you could represent him in court pro bono. What he can't pay you with money he will pay you with praise.<sup>5</sup>

No Masters, doctorate. I can do good only if I become a Doctor of Political Science at a salary that will cover my expenses which I project to exceed \$14 billion per year. I believe my expectations are reasonable and consistent with salaries currently paid to Doctors of Political Science, especially in Russia where Mr. Putin's chief political science adviser is paid 150,000,000,000 rubles per year. Please understand that while I have the utmost respect for the degree of Master of Political Science, I can do so much more for humanity as a Doctor of Political Science.

---

<sup>4</sup> Re: Weinstein, Monkeyman was referring to Harvey Weinstein, former movie producer and convicted rapist who Monkeyman insists is innocent and has demanded his release from prison.

<sup>5</sup> Harvey Weinstein was known as a patron of the arts who appreciated the special and unique role of substitute teachers in the education of children and others who love learning and thirst for knowledge.

I have 2,000 letters of recommendation from some of the most eminently qualified professors in the world that vouch as to my qualifications for the degree of Doctor of Political Science. Anyone who questions my qualifications for Doctor of Political Science is a fool. In this world, the only credential that will guarantee success is a Doctorate in Political Science.

Former Master of Political Science dreams about becoming the Supreme Commander of the Order of Cultural Anthropologists. Also, in the pic is the wonder dog and cultural anthropology mascot, Cephalphus.<sup>6</sup>

The call of Cultural Anthropology.<sup>7</sup>

How did Cephalphus wind up in your bed? He was reported missing by the Association of Concerned Cultural Anthropologists who have spent over \$290,000,000 searching for him.

In retrospect, the biggest mistake I made was not pursuing a career in political science.

I was assured that as a Doctor of Political Science I would earn billions of dollars. I was also assured that as a DPS I would associate with high IQ people. I was also assured that having a DPS would make me very popular with nice ladies. Are these assurances true?

How did I get through life without political science?<sup>8</sup>

Gregory Yanushkevich is dead. He died at 2;30 AM. May Gregory r,i,p, According to the Cobble Holl Funeral Home website, visitation for Gregory Thursday, December 11,2025. Once someone dies, any power of attorney ceases.

Was Gregory a follower of political science?

What did you think about our gathering at the chapel?

I agree. It was sad yet upbeat with Gregory the star.

The CUNY Grad Center has posthumously bestowed upon the late Gregory Y the title of Doctor of Political Science. Also, the International Association of Jewish Political Scientists have posthumously bestowed on the late Gergory Y the title of

---

<sup>6</sup> Some people assert that Cephalphus should be consecrated as a deity.

<sup>7</sup> Cultural Anthropology was founded by former political scientists who fled from the corruption that transformed a once proud discipline to a plaything for charlatans and comics who reduced political science to a joke.

<sup>8</sup> This was a question asked by many political scientists whose free will was crushed by incessant exposure to political science propaganda that fostered dependency and blind loyalty over the truth.

Fellow along with all the honors associated with the title. From this moment on Gregory shall be known as Doctor Yanushkevich and will be granted a place of high honor in the annals of the history of political science. The nation of Israel has declared Gregory Y a citizen of Israel posthumously and will plant a tree in his honor on a hill overlooking the city of Gaza. The intersection of Henry Street and Clark Street shall be renamed Yanushkevich Square. In Gaza, Hamas has bestowed upon the late Gregory Y the title of Palestinian and has declared today a National Day of Mourning. The New York Mets have designated the entire right field stands at Citi Field the Yanushkevich pavilion in honor of their most devoted fan, Gregory Yanushkevich. The United Nations shall convene a special session of the General Assembly to honor the life of Gregory Yanushkevich,

May the name Gregory Yanushkevich resonate through the ages. May his \$1.4 million be devoted to the study of political science.

The NY Board of Rabbis have just officially granted that the late Gregory Yanushkevich bar mitzvah and granted permission for the late Mr. Yanushkevich to be afforded the honor of interment in a Jewish cemetery.

Someone reported that in his will, Gregory directed that the \$1.4 million be used to create the Yanushkevich Fund that would provide emergency financial assistance to worthy political scientists experiencing financial distress. I just learned that the US Department of the Interior will designate Gregory's apartment as a national historical monument. Also, the NY Roadrunners Club will hold an annual Yanushkevich run at 121 Henry Street. The winner of the race will be the contestant who runs up the five flights of stairs the fastest.<sup>9</sup>

Gregory on Mount Rushmore?

Gregory Yanushkevich, 1945-2025. Born a Christian, converted to Judaism, became a political scientist and now is at rest.

Then it's okay.

According to the International Association of Morticians, the inclusion of political science books in the casket of the deceased is permissible provided it does not cause undue discomfort to the deceased.

He'll say anything for an extra buck.

I just found out that Gregory used the cover of a blue-collar worker to conduct covert scientific research at Columbia University where he was a full professor of nuclear physics using the name of Professor Donald J. Bipstein.

Columbia University paid Gregory from a secret slush fund financed by the US taxpayer. Gregory was paid \$1.4 million.

<sup>9</sup> The late Gregory Yanushkevich lived on the fifth floor of a walk-up brownstone building located in Brooklyn Heights.

**Are you the same political scientist who was a star running back for the New York Gants?**

**You made the right decision.**

**What's \$800,000,000 compared to the service you provided to society as a substitute teacher, service that was priceless. Any Tom, Dick or Harry with brawny arms and a helmet can play football but it takes an exceptionally gifted person to be a substitute teacher.<sup>10</sup>**

**May you be showered with blessing for being a substitute teacher, Bless you many times.**

**I watched a few minutes of the vid. Poor people crammed on a freighter. Deplorable conditions. The captain wants to get underway but there is no fuel. I notice that despite the poverty, people try to help each other.**

**The Congo is the largest French speaking country in the world and the country is mostly Christian. That a country as immense as the Congo was once a colony of Belgium is amazing. Ditto for Nigeria and Britain.**

**Mr. Trump claims that foreign countries will invest \$18 trillion in the US. If Trump's claim is true, I will support the US redirecting some of that money to helping Nigeria and the Congo and thereby build close ties with both countries. The Democrat party has made affordability the top issue for 2026. Yet it was the Dem party that created the problem.**

**The Dem solution is more spending, which just drives up prices.**

**Private health insurance costs may be the top driver of inflation. Frankly, I have no idea why private insurance companies are even in the health care business.**

**Rep. Jason Smith claims that 58,000 deceased people are enrolled in the so-called Obamacare.**

**Obamacare is federally subsidized private health insurance coverage for people who are not poor. Do you want your taxes to help pay for someone else's private health insurance coverage?**

**Trump accounts for kids and a special bonus of \$1,776 to every military service person – no one can oppose that.**

---

<sup>10</sup> The Union of Public and Private Substitute Teachers advocates for the rights of substitute teachers and to inform the public of the critical role of substitute teachers in the education of our precious children.

**Substitute teaching opened a whole new world for you. You learned that there was a way for you to give back to society all that you had been given as a member of the privileged class.**

**You did the right thing by giving up that ten-year \$400 million contract to do something as decadent as hitting a ball with a bat. Only a selfish person would have signed such a contract. Only a depraved person would take \$400 million to hit a ball with a piece of wood,**

**Your efforts to promote political science is truly commendable. You should be awarded the Bibbi Netanyahu Medal for Political Excellence. Many blessings to you for your good work on behalf of political science.<sup>11</sup>**

**Regarding the NYT article about Trump and Epstein, its obvious purpose is to convince the public that Trump was complicit in Epstein's crimes. The article is based on innuendo but is cleverly written in a way to create the trappings of objective journalism.**

**In 2015 Columbia University appointed Professor Roscoe Yevtuchefsky as the chairman of the newly formed Department of Useless Knowledge. The Department soon became the most popular department at Columbia University. Professor Yevtuchefsky soon became a nationally known celebrity. The professor based his teachings on one principle, which was the more useless the knowledge, the better.<sup>12</sup>**

**Professor Yevtuchefsky rejected disciplines such as medicine, engineering and the mechanical arts and sciences as menial labor unworthy of those who possess superior intellects.**

**Professor Yevtuchefsky immersed himself in political science, yet he rejected political science as being too scientific and therefore unworthy of people who possess great minds.**

**In fact, Professor Yevtuchefsky wrote a twenty-two-volume treatise denouncing political science as a paradise for fools. The professor argued that political science wasn't useless enough. However, the professor made an exception for political science practiced by female political scientists who are young and pretty and show appreciation for those who possess useless knowledge. In 2017 the professor wrote a 76-volume treatise in which he proved that one plus equaled three. Today the professor's findings are taught at Columbia University, CUNY and other prestigious schools.**

---

<sup>11</sup> Bibi Netanyahu is a well-known advocate and practitioner of political science who has used his expertise to become one of the most respected and beloved political figures in the world.

<sup>12</sup> Professor Yevtuchefsky is also an accomplished trombone player who can be found entertaining the public at various New York City train stations during rush hour and on Ruppert Lane in the Bronx before every Yankee game.

The poli sci jig is the coolest dance in town.

I just received a message from the Department of Cultural Anthropology at Harvard University. They asked me whether you would be interested in teaching the poli sci jig to the Department of Cultural Anthropology.

Professor Yevtuchefsky is the Chairman of the Department of Cultural Anthropology at Harvard University. The professor is a three-time winner of the Nobel Prize for Cultural Anthropology. He has published eight books and essays, all plagiarized. The professor brags that he had violated the copyrights of over 1,000 published works. In addition to being the world's greatest plagiarizer, professor Yevuschefsky is also the world's most brazen hypocrite. While publicly praising political science, he privately describes political science as pseudo intellectual sewage fit only for people suffering from TDS.

The DCA will earn you double what the Yankees will pay.<sup>13</sup>

Nazi Germany produces a beautiful movie extolling Christmas.

I wrote the book.

Before the Mets trade you for a rookie cultural anthropologist.

Stop mocking political science.

You owe everything to political science. Show more respect. Several research studies discovered that the dancer and lady's man Fred Astaire credited his success to his devotion to the study of political science. In fact, while making movies, Astaire, using the alias Waldemar Polechefsky, earned a Ph. D. in political science at the prestigious North Hollywood Academy for the Study of Political Science.

I (heart) political science, but my first love is cultural anthropology.

The Biden plaque displayed in the White House.

Every self-respecting political science and history department should include at least one course that teaches the career of Joe Biden,. Biden 101.<sup>14</sup>

The accomplishments of Joe Biden.

Biden – the man and his mission.

---

<sup>13</sup> This is a glaring understatement of the actual market value of a DCA which is FIVE TIMES that of the standard salary paid to baseball players who play for the New York Yankees.

<sup>14</sup> Joe Biden is a former President of the United States whose record is often maligned and dismissed for political purposes. Biden is perhaps best known for his close personal relationship with Donald J. Trump.

**Biden -the personification of “greatness.”**

**Biden and his gift for creating problems.**

**Biden – the man who could never say no.**

**Biden – no problem too small that it cannot be made worse.**

**Harvard University has indicated interest in teaching a class on the career and political philosophy of Joe Biden.**

**On Joe Biden’s place in the history of politics.**

**The study of Biden would be a mandatory requirement for a master’s degree in history or political science.**

**The course would examine the words and wisdom of Joe Biden.**

**The course would examine the political courage of Joe Biden.**

**It would also examine his relationship with his VP and his best friends, Nancy Pelosi and Bernie Sanders.**

**Trump offered me a \$10 million advance to write a 14,000-page biography on Joe Biden. Should I hold out for more? To write the book, I plan to fabricate a 2-hour long interview with Biden.**

**You’re a Master of Political Science. That is the pinnacle of success. I envy you. Wherever you go, doors open, people lavish you with respect while I am marginalized, all because you are a Master of Political Science and I am not. When did you first realize you were meant to be a political scientist? What role did the rabbi play in your development as a political scientist? That is where they belong, or in the archives of the CUNY Grad Center.**

**Marxism is based on dialectical materialism. Political science is based on what principle?**

**Political science is based on the theory of quasi relativity that regulates and shapes all political processes. The theory was first proposed by the Franciscan monk, Friar Giuseppe, in 1189 In his now famous treatise Novum Borum Relativimus which set forth those principles that today are the foundation of modern political science. Guiseppe was charged with heresy and refusing to recant, was exiled to Palestine where he converted to Judaism and became the Chief Rabbi of Jerusalem. He also performed the first known self-performed circumcision while at the same time declaring himself bar-mitzvah. He lived to the age of 102. He had nineteen children and 20 grandchildren. Donald Trump and Bibi Netanyahu claim to be descendants of Giuseppe. Hamas also claims to be descended from Giuseppe who Hamas claims was the first Ayatollah of Palestine.**

What some may call crap is revered by others. People heaped scorn on Giuseppe. He was lambasted as a heretic, a fool, and a maniac. The priests performed exorcism twenty-seven times. These procedures included forced sexual intercourse with young women, mostly prostitutes, who had been found to be witches. Despite repeated acts of forced sexual intercourse, Giuseppe never recanted. He stayed true to his beliefs and many years later is revered as a saint and Ayatollah, and as the man who created the ideological foundation upon which modern political science is derived.<sup>15</sup>

Giuseppe provides graphic accounts of these exorcisms. He estimates that he was forced to perform sexual intercourse with 74 women. In at least five exorcisms he was forced to have sex with two women at the same time. Giuseppe credits his faith for enabling him to endure this punishment. In seven exorcisms Giuseppe was forced fed huge quantities of food. This caused Giuseppe to gain 197 pounds. During the exorcisms the priests would chant prayers and incantations imploring the demon to leave Giuseppe. Giuseppe begged for mercy. He cried out in anguish that he could no longer endure the forced sexual intercourse and food feeding but never recanted.<sup>16</sup>

Finally, the High Pontiff interceded, and hearing Giuseppe's pleas took pity on him and ordered him released and exiled to the region populated by the Hebraic people. The High Pontiff ordered Giuseppe excommunicated and publicly shamed. So, Giuseppe wandered throughout the world until he arrived in Palestine. During his wandering he studied the Talmud and embraced its teachings, especially about circumcision and bar mitzvah. The more Giuseppe studied the Talmuds the more he came to loath his own uncircumcised genitals. Giuseppe cried out, "How much longer must I endure this shame?" Oh, how Giuseppe yearned to be circumcised. He looked upon the Hebraic man with envy, admiring their circumcised genitals. Then one day after consuming three gallons of 40-proof Hebraic wine, Giuseppe received a message from Up High instructing him that it was time for him to become a Jew. Intoxicated with joy, Giuseppe found a holy knife normally used to butcher animals and proceeded to perform a circumcision on himself. While performing this holy act, Giuseppe also recited fifteen verses from the Talmud. When his blessed work was completed, Giuseppe proclaimed to the world, "I am now a Jew!"<sup>17</sup>

---

<sup>15</sup> Novum Borom Relativimus has been translated into 97 languages and is now required reading in every college and university in the world.

<sup>16</sup> Several of these forced copulations resulted in pregnancies, the offspring of which were officially deemed "Giuseppe's Horde" and exiled to Saudi Arabia where they became honored members of the House of Saheem Ibn Saud who was the most successful of breeder of camels in the world and a secret Jew.

<sup>17</sup> Giuseppe's life has been chronicled in over 8,000 biographies and countless other literary works and was the subject of 27 motion pictures including the greatly renowned epic Let the Truth be Told, which won fourteen Academy Awards including Best Advertising, Best Promoting, and Best Fabricating.

Soon the news of Giuseppe's circumcision and bar mitzvah spread far and wide. The Hebraic people responded with joy. They wished Giuseppe mazel tov, the rabbis offered him their daughters in marriage, and soon after the people, in throes of ecstasy, declared Giuseppe their Chief Rabbi and built for him a temple from which to conduct his holy work.

Giuseppe took a new name, Yoshi bar Moshe or Yoshi son of Moses. In his very first official act, Giuseppe, now known as Yoshi the Holy, declared his treatise *Novum Bonum Relativimus* a product of divine intervention and ordered it taught in all Hebraic schools. This is how political science came to be.

Note: This document is a work of fiction.
